Title: _____ First Name: _____ Surname: _____

Title: _____ First Name: _____ Surname: _____ (for more than 1 family member)

Villa / Flat Number: _____ Area (e.g. Jumeirah / Mirdif): _____

Street Name & Number: _____ City: _____

Home Phone: _____ Work Phone: _____

Mobile: _____ (2 numbers if possible)

WhatsApp: _____ (if different from mobile)

Email: _____
_____ (2 addresses if possible)

Emergency Contact Name: _____ Phone: _____

Email: _____

We will of course do everything we can for your pet if any major medical situation arises, and in such circumstances will also make every possible effort to contact you. If for some reason you are not reachable at a time when critical decisions have to be made for the welfare of your pet, please make sure we will be able to contact someone you trust and hereby authorize to make critical decisions on your behalf.

Name of Vet & Clinic: _____

(If you do not specify your own vet, we will use our own DKC Veterinary Clinic or other preferred vet should the need arise.)

Not Entirely Well?: Occasionally, our pet boarders experience minor problems (e.g. general malaise, loss of appetite, skin rashes, superficial cuts, etc.) that are dealt with in a routine manner and for which the attention of a [veterinarian](#) may or may not be required. Would you like DKC to contact you under these circumstances? ☐ Yes ☐ No

Fluey & Poovey: If your cat has a snuffle or your dog is a little "full" of himself (get it?), we have a couple of remedies we like to use called Promax and L-Lysine, as well as the use of special veterinary food. Now, the good news is that they are totally safe and extremely effective, but the bad news is that we do have to charge our "medications administration" fee for them, plus our cost price for Promax, and we would like you to know a little more about it all before deciding. So, take a look at our website (at <http://www.dkc.ae/what-we-do/boarding-daycare/love-and-other-stuff-too#FlueyPoovey>) and also have a chat with our handlers. Would you like us to use Promax or L-Lysine even though there is a charge? ☐ Yes ☐ No

Weight Changes: Your pet might lose or gain weight while with us due to the increase in activity levels or perhaps due to the stress of being in a new environment. Rest assured all pets are weighed on a weekly basis and if they're having eating or toileting problems, they're weighed even more often and changes are made to their diet (usually based on your instructions). Now, we don't want to unnecessarily disturb or worry you if you're chillin' on the beach somewhere, so... would you like us to contact you under these circumstances? ☐ Yes ☐ No

Light Grooming & Bathing: All dogs and cats boarding with us always go home to you groomed, or what we call "lightly groomed": regular proper brushing and dematting, ears cleaned, and nails always checked and, if needed, with your permission first, clipped. If your dog stays 5 nights or more, he or she is bathed too the day before going back home to you, and of course no matter how short or long a time they stay with us, if playtime (or lifetime!) results in dirty-time, then it's definitely bath-time too! BUUUUUUUUT... take note: between the time we've bathed them and the time you get them back, your lovelies do quite a bit of playtime in our sandy play yards, often with other dogs, so they won't be quite as just-out-of-the-bath-fresh as you might hope for; so that's when we pull out the doggie wipes and spritzers to freshen 'em up just before they leave us. If you have any concerns or questions about any of this, just let us know.

If you're a first-time customer, how did you hear about us? _____
